

# GALION 22

The Galion 22 sports cruiser offers a unique combination of four-berth comfort and top sailing performance. Extremely attractive appearance is complimented by the practical design features incorporated in this Fibreglass moulded craft.

The self-draining cockpit takes six adults on seats curved to suit body contours. Useful open lockers are included in the side coamings and there are lockers with moulded hatches below the seats. The teak tiller is hinged, the mainsheet track runs across the forward end of the cockpit and all sheets and halyards are led aft to the cockpit – so that Galion 22 can be sailed single handed.

Large wooden handrails on the coachroof and the high degree of tumblehome aid steadiness when on the side decks. Decktop and coachroof have non-slip surface moulded in. A stainless steel pulpit mounted well inboard gives real support to crewmen on the foredeck. This positioning also allows a low cut genoa to be set to best advantage.

Galion 22 has a seven-eighths rig, mast and boom of gold anodised aluminium, and internal halyards. Roller reefing is standard and standing rigging is stainless steel.

Below, the accommodation is airy and well lighted by large windows. The quarter berths to port and starboard have a shelf above them. Hangers under the shelf take clothes or bedding and form a backrest when full.

The basic layout is two quarter berths in the saloon with sink and fresh water pump under the bridge deck between the two quarter berths. On the starboard side of the cabin there is a galley ready to take stove and cutlery. There is food stowage under this unit. To port there is a chart table with stowage under

In the forecabin there is a double berth to take full size adults, a toilet with sea cocks. All upholstery is 3" thick and the berths are 6' 6", and the quarter berths are longer.

This boat is also offered in kit form. This comes complete for home completion with everything that is needed to fit out your Galion as the above standard boat, this version does not include a toilet.

Hull mouldings are offered for you to complete to your own personal layout, subject to availability from our manufacturers.

GALION COLOURS: *Hull*: White, Dark Blue, Red. *Deck*: White. *Interior*: White with varnished teak and teak-faced plywood. *Cushions*: Colour as required.
